Professional Summary

Fresh graduate in Information Technology Engineering with hands-on experience in Flutter/Dart development. Built 2 fully functional mobile applications utilizing Bloc/Cubit state management and REST API integrations. Skilled in Git, Linux, SQL, and responsive UI design. Proven ability to engineer scalable code and deliver user-centric technical solutions. Seeking a Junior Mobile Developer role.

Technical Skills

- **Mobile Development:** Flutter, Dart, Bloc/Cubit, REST APIs, Responsive UI Design
- **Programming:** Python, HTML, CSS, JavaScript
- **Databases:** SQL (SQLite/MySQL), NoSQL (MongoDB)
- **Systems & Tools:** Git, GitHub, Linux CLI, Power BI, Networking Basics (MikroTik/CCNA)

Education

Bachelor of Information Technology Engineering
Faculty of Engineering - University of Aden | 2025
Grade: **Very Good**

Projects

1. **Football Playground Booking App (Flutter, Bloc/Cubit)**

   Developed a responsive mobile app for stadium reservations with complex booking workflows and multilingual support.
   Implemented 15+ reusable UI widgets and handled state management using Bloc/Cubit to ensure high performance.
   🔗 GitHub Repository: Stadium App

2. **Weather-Based Dynamic Theme App (Flutter, OpenWeatherMap API)**

   Engineered an app that dynamically switches themes based on real-time weather data retrieved via OpenWeatherMap API.
   Managed API error handling and offline data persistence to ensure a seamless user experience.
   🔗 GitHub Repository: Weather App

3. **Academic Python Projects (CI_Repository, School_Project)**

   Developed scripts to solve classroom problems and automate basic tasks.
   Demonstrates foundational programming logic and problem-solving.
